

MetaMaskMeme (\$MASK) Whitepaper

Introduction

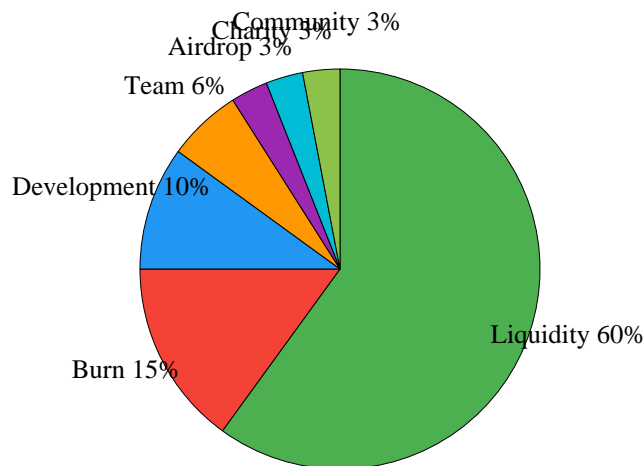

MetaMaskMeme (\$MASK) is a community-driven Solana meme token inspired by the global adoption of MetaMask and the viral power of internet culture. Designed to merge humor with utility, \$MASK aims to capture the spirit of decentralization, reward early adopters, and fuel a vibrant ecosystem of memes, engagement, and innovation.

With a fair launch approach, strong liquidity, and community-first incentives, \$MASK seeks to become more than just a meme—it is a symbol of Web3 culture and a gateway to accessible, fun, and rewarding blockchain participation.

Tokenomics

Total Supply: 1.05 Billion \$MASK

Allocation Breakdown with chart representation below:

- 60% Liquidity – Ensures deep liquidity for smooth trading, minimizing volatility, and fostering long-term price stability.
- 15% Burn ■ – Permanently removed from circulation over time, creating deflationary pressure that increases scarcity and long-term value.
- 10% Development, Partnerships & Exchange Listings – Dedicated to ecosystem growth, collaborations, and listings on top-tier exchanges.
- 6% Team – Reserved for the core contributors with a vesting schedule to align long-term commitment and sustainable growth.
- 3% Airdrop – Rewards early supporters, fostering grassroots community growth and widespread distribution.
- 3% Charity – Committed to giving back through social impact initiatives worldwide.
- 3% Community Incentives – Allocated to growth campaigns, contests, memes, and rewarding active contributors who drive the \$MASK movement.

Highlights

- Majority allocation to liquidity ensures stability.
- Burn mechanism builds scarcity over time.
- Clear focus on partnerships, exchange listings, and growth.
- Community & charity allocations reflect real impact and inclusivity.

Utilities

While \$MASK is rooted in meme culture, it is backed by real, community-focused utilities:

1. Meme-to-Earn Ecosystem – Users can create and share memes, earning rewards in \$MASK through community voting contests.
2. NFT Integration – Exclusive \$MASK-themed NFT collections tied to meme culture. NFTs grant holders access to premium meme contests, governance rights, and community events.
3. Governance (DAO-Lite Model) – \$MASK holders participate in community polls and proposals.
4. Charity & Impact Fund – Blockchain transparency ensures donations from the 3% charity allocation reach global causes.
5. Gamified Community Incentives – Quests, staking challenges, and meme battles drive engagement.

Roadmap

Phase 1 – Launch & Awareness: Token deployment on Solana, website & whitepaper release, airdrop & community onboarding, initial meme contests.

Phase 2 – Growth & Integration: CEX & DEX listings (partnerships allocation utilized), Meme-to-Earn platform beta release, \$MASK NFT collection launch, influencer partnerships.

Phase 3 – Ecosystem Expansion: DAO-lite governance implementation, charity fund activation with first community-voted donation, strategic partnerships with meme pages, crypto influencers, and DeFi projects, burn events.

Phase 4 – Long-Term Sustainability: Full Meme-to-Earn ecosystem launch, cross-chain expansion (Ethereum & BSC bridges), large-scale meme competitions, becoming the #1 meme hub on Solana.

Vision & Mission

Vision: To become the most influential meme-powered token on Solana, bridging humor, culture, and real utility in the Web3 space.

Mission: To harness the viral nature of memes while empowering communities, rewarding creativity, and giving back through charity and impact initiatives.

Why \$MASK?

- Riding on the MetaMask hype while leveraging the speed and low fees of Solana.
- Strong tokenomics with a clear deflationary model.
- Meme-first, utility-backed approach ensures both fun and sustainability.
- Community-driven growth with incentives, contests, and governance.

MetaMaskMeme (\$MASK) is more than a token—it's a movement. Join us as we turn memes into value, and value into community impact.
